Mile 4	**30:31**
Mile 6	**45:46**
Mile 8	**1:01:02**
Mile 10	**1:16:17**
Mile 12	**1:31:32**
Finish	**1:40:00**

How to use

1. Cut the strips along the dotted lines. The every 2 mi strip reads at a glance on your wrist; keep the mile strip in a pocket or under your bib.

2. Protect it with wide clear tape, then fasten it to your wrist with a rubber band or under your watch strap.

3. Times are elapsed from when you cross the start line (chip time). In a race with wave starts, the official clock may show more.

4. Stick to your times early on, even if you feel good: time banked too soon is often paid back in the last quarter.

The race

2027 edition: Sunday, March 7, 2027
